Benefits and Directions

The Benefits

Swimmer's Itch Guard Oil prevents Swimmer's Itch. When applied thoroughly and liberally, the oil repels the parasite and prevents it from penetrating the skin and causing Swimmer's Itch.

Swimmer's Itch Guard Oil contains seven healthy, anti-inflammatory oils that are great for your skin. You can apply it to your face and your body every day. It is safe for children and easy to apply. Swimmer's Itch Guard Oil makes your time in the water, on the water, and at the beach much more pleasant.

Important Directions

FOLLOW THESE DIRECTIONS CAREFULLY, AND YOU AND YOUR LOVED ONES WILL NOT GET SWIMMER'S ITCH. (for children 2 years and older and adults): **Apply sunscreen first, especially spray-on sunscreens which contain alcohol** (alcohol removes our product). **Before entering the water, apply Swimmer's Itch Guard Oil to all uncovered skin** that will be in the water – including on skin under loose shirts, shorts, and swimsuits. **Apply liberally and evenly.** If you get Swimmer's Itch, you missed a spot or did not apply it liberally enough. **Reapply after 30 minutes of water activity, showering, or hot-tubbing.**
